VOLUME LXV., NUMBER 7. REDWOOD CITY, SAN MATEO COUNTY, CALIFORNIA, SATURDAY, MAY 16, 1925. ESTABLISHED 1859

MRS. FINKLER HEADS COUNTY CLUB COMMITTEE

Mrs. H. C. Finkler of this city was honored this week by being appointed chairman of the committee for this county to aid in the building of the Women's Building in San Francisco, a building designed to house the activities of a number of clubs and other women's arganizations.

The Women's Building is to be a twelve-story building erected on property owned by the Women's Building Association of San Francisco. The project was initiated by the San Francisco City and County Federation of Women's Clubs. The Building Association now has 5,200 members in the city of San Francisco, in other California communities and in other states. The Association is incorporated under the laws of the State of California as a non-profit corporation.

The Women's Building undertaking is a civic movement on the part of the club women of San Francisco and other communities to provide in San Francisco a needed community center for women's activities. The primary objects of the Women's Building are: to provide a housing organization in which various women's clubs will be assembled in a centrally located building; to provide a community center for women's activities and for discussional, recreational and civic activities for both men and women; and to provide a headquarters for women members from out of town.

Only three or four San Francisco women's clubs have homes of their own. Others meet in any place obtainable. Most clubs have hopes of headquarters of their own. The Women's Building will house all women's clubs desiring headquarters and will eliminate the probability of numerous building campaigns for individual clubs.

The Association already has 1,300 out-of-town members who will use the building as a home and headquarters while visiting San Francisco. The building will fill a need for a comfortable temporary home for visiting women who can come alone or with their children. It will be a commercial asset to San Francisco as well as a unique civic asset of which the community can be proud.

The appointment of Mrs. Finkler to this position is in recognition of her many years of service to the local club and to the county federation.

PESCADERO TO CELEBRATE FEAST OF HOLY GHOST

Pescadero will celebrate the feast of the Holy Ghost under the direction of the I. D. E. S. Society, May 23rd, 24th, and 25th. The Santa Clara band has been hired to play. Antone Brazil will be the Marshall of the day and Joseph Brazil, President. Mary Mancabeo will be queen with Catherine Santos and Serfina Pimentell as her aides.

Grace Nunes, Thresa Rodrigues, Dorothy Nunes and Medeline Soares will hold the rods. There will be a grand ball Saturday night and Sunday afternoon and a barbecue Sunday afternoon. As this is the only place holding the celebration at this time a large crowd is expected.

HALFMOON BAY MAN DEAD AFTER ILLNESS

Joseph Martin, for many years a resident of Halfmoon Bay, died Thursday at the Mills Memorial hospital, following an illness of several weeks. Martin was a bachelor. He was an uncle of Miss Mary Martin, the well-konwn teacher of the coastside.

LOCAL BANDIT FOUND INSIDE OF PRISON

Luis Harris, who came into prominence some time ago as the "sick baby bandit" by taking Dr. J. F. H. Dykes of this city to San Carlos to see a sick baby and then robing him, was thought to have escaped from San Quentin this week. Harris was out of his cell for 11 hours before absence was noticed.

A search was instigated in the prison and Harris was finally located by one of the guards under a pile of lumber in the prison yard. He made no attempt to escape when discovered.

The bandit was serving a term of from 5 years to life. He is said to have a long criminal record and is now under special surveillance.

LUDWIG WERDER DIES SUDDENLY

Ludwig Werder, a resident of this city for the last 53 years, passed away at his home at 412 Hamilton street at 5 o'clock yesterday morning. His death was the result of an attack of heart trouble.

The deceased was a native of Sargan in the province of Silicia in Germany. He came to this country in 1861, just at the outbreak of the civil war. His sympathies were strongly with the Union at that time and he tried to enlist but was rejected as being too young. Two years later he enlisted in a New York regiment and served during the remainder of the conflict.

Fifty-three years ago Mr. Werder came to Redwood City and made his home here. He soon secured work at the tannery now known as Frank's tannery and became the foreman of that plant, a position he held for many years, until a few years ago he retired from active work to spend his remaining days at his home here.

The deceased and P. P. Chamberlain were the two remaining members of the George S. Evans Post of the G. A. R. which was established here, the latter is now the only surviving member. Bert Werder, son of the deceased, a driver of the Redwood City fire truck secured a week's vacation from the department and was to have taken his father to Sacramento next week, where he was to attend the convention of the G. A. R., an occasion which he never missed.

Surviving the deceased are his wife, Mrs. Bertha Werder and four sons, Ernest H., Bert L., Ludwig E., and Henry A. Werder. The funeral will take place Monday at 2 o'clock from the parlors of the James Crowe Co. on Webster street. Interment will be in Cypress Lawn.

RUN-A-WAY BOY IS FOUND AT LA HONDA

For the third time within the past three months, Otto Kleist has had his plans of seeing the world smashed upon the rocks of the local police department. Otto, who is thirteen years old and a school boy of San Francisco, made an attempt some time ago to make a walking tour of the world with a boy friend. They were intercepted here at Redwood City, however, and sent home to their parents.

Last week Otto induced his brother, Victor, to accompany him, and again started. But this time he again ended up in Redwood City, where the boys were held at the jail until their father could come for them.

While being taken home, however, Otto succeeded in making his escape again and was not found until last Sunday, when he was discovered between Woodside and La Honda. He was placed in the hands of the probation officer, and again returned to his home.

WOMENS CLUB ELECT OFFICERS FOR THE YEAR

At an election held last week the following ladies were elected to office in the Redwood City Woman's Club:

President and director, Mrs. H. M. Laflin; First Vice-Pres. and director, Mrs. W. L. Meussdorffer; Second Vice-Pres. and director, Mrs. D. W. Williams; Recording Secretary and director, Mrs. Richard Schmidt; Cor. Secretary and director, Miss Flor-E. Bellis; Fed. Sec. and director, Mrs. Geo. A. Merrill; Treasurer and director, Mrs. C. R. Chapman; Directors, Mrs. F. W. Lippman, Mrs. C. D. Swett, Mrs. W. J. Dusel, Mrs. Rupert Johnson.

The local club has a number of affairs planned for the near future an is continuing to extend its activities. An active interest is being taken in the erection of the Women's building in San Francisco.

SCHOOL PRINCIPAL GIVEN PRESENT BY CHILDREN

A. E. Monteith, who recently tendered his resignation as principal of the Redwood City schools, was this week presented with a beautiful portmanteau by his former pupils in token of their regret at his leaving. Within the portmanteau was a complete set of toilet articles, each one beautifully inscribed with his initials.

The presentation was made at the Central School building Thursday by a committee of teachers and students of the school. The principal was surprised and greatly affected by this unexpected expression of gratitude on the part of his former pupils.

Play Day Enjoyed by Children

Several hundred children from the twelve grammar schools in the Sequoia high school district participated yesterday in the third of a series of four Play Day fetes being held in San Mateo county under the supervision of Miss Irene Bradley, county supervisor of Physical Education in rural schools. The fete was held at the high school athletic field.

A posture parade, six Maypole dances, an Indian dance and field and track events constituted the program for the morning. Baseball games and volley ball games took place in the afternoon.

Ravenswood, Las Lomitas, Portola, La Honda, Woodside, Belmont, San Crlos and Menlo Park grammar schools had entrants in the posture parade. Fern De Villiers, Ravenswood; Virginia Grady and Alva Newkirk, Belmont, were the winners in the posture tests. Eliminations were based on posture while (1) standing at attention, (.) marching, (3) and calistehnic drills. Mrs. Jerome Smith, Sequoia High, and Miss Elsie Northrup of San Mateo were the judges.

Menlo Park had two Maypoles decorated in blue and white, and pink and green; Ravenswood also had two poles, one pink and green, the other yellow and white; Los Lomitas had pink and blue, and Belmont blue and gold. Sixteen little girls and boys from Portola gave an Indian dance. Miss Bradley was in charge of the dancing and posture parade. The Redwood City grammar school orchestra supervised by Mr. Gaylord played for the dances.

Track events were being run off, under the direction of Mr. Willam Kelley at the same time the Maypole dances were in progress. The officials for track were John Ryan, George Svihus, John Herme, Sam Brown, George Ritter, Sidney Hinman, Albert Oneto, Gus Fromm, Ferdinand Ruling and Dan Foley The track events had been divided into A. B. C. and D. divisions for the dash, running and high broad jumps and relay races.

Schools playing volley ball in the afternoon were: Portola, Belmont, Ravenswood, Los Lomitas and San Carlos, also a pick-up team. Alda Silva, Margaret Hoenck and Lila Gadberry umpired the games, Miss Genievive Anderson had charge of volley ball games.

Lincoln school of Redwood City and Ravenswood, Redwood Central and Intermediate, Menlo Park, Woodside, San Carlos, Washington of Redwood City, and Portola had boys' baseball games. Girls' teams were entered from Ravenswood, Redwood Central, Intermediate and Lincoln schools. Los Lomitas and Belmont had mixed teams. Mr. Griffin was in charge and had appointed the following boys as umpires: Al Hallett, Herman Mettler, Paul Bartolemei, Frank Warren, Oren Collins, Joe Chew and Gene Jordon.

An information booth was conducted by the high school with Margaret Hoenck and Grace Cleland in charge. The Juniors with the help of their class advisor, Miss Juliane Wolters, conducted a refreshment booth.

NEW GARAGE OPENED ON MAIN STREET

The garage which has just been finished on the corner of Main and Maple streets on property owned by Charles Knight of Menlo Park was formally opened last Satrday by Rice and Hinton who will carry on a general repair business and a full line of accessories.

The owners are both skilled mechanics and are both well known here. Stanley Rice has for many years been engaged in the garage business in San Francisco and George Hinton was formerly connected with the Clifton Motor Co. in this city.

The new garage will be open day and night and will give 24-hour serice. Beside the repair department, expert washing and polishing, greasing and other serices to the motorist will be rendered.

Associated with Rice nd Hinton in their new building is L. C. Rowen, who has secured this territory for the sale of the Buick automobile and will maintain his headquarters there.

Senior Class Will Stage "Revue"

Something unusual in the way of dramatics is promised by the senior class of the Sequoia Union High School in "The Revue of 1925." This production will be different from any heretofore tried in amateur theatricals here, and is an original composition by Miss Catherine Boyle, English teacher of the high school.

"The Revue of 1925" will be a sort of kaleidoscopic view of all of the productions which have been staged at the high school this season, in which characters from first one play then another come and go with charming unconventionalism. Long John Silver of Treasure Island meets Willie Baxter of Seventeen. Harlequin and Columbine of the "Pot Boiler" appear in the plot with Kokemo of "Cherry Blossom." The whole has been arranged in an interesting extravagaza by Miss Boyle and is a production of real dramatic merit. Miss Boyle is also directing the play.

Various choruses will appear, accompanying the main characters, and adding to the effects.

Practically all of the 100 seniors of the class are engaged in the "Revue" which ensures plenty of talent.

Special lighting, setting and music are being planned to make the "Revue" unusual. The pgologue which opens in Persia in the year 3,000 A. D. and the main acts in Actor Land promises something out of the ordinary.

Tickets for "The Revue of 1925" are now on sale at 50c which includes reservations.

OLD SUBSCRIBER WRITES OF PAST EVENTS

In a letter received this week from Mrs. C. E. Pinkifer, who was formerly a resident of Redwood City, but who now lives in Chicago, Illinois, she says:

"I find the paper more and more interesting as the years roll on. I first went to California in 1875 and lived there for five years, and have made about six visits since leaving.

"In the last issue I saw the account of the death of Carrie Hawes. I well remember seeing her riding around in her phaeton. I attended Sunday School in the old Congregational church, and remember well the fire when the American house burned and Will Fribies' drug store, Crowley's hotel and Chamberlain and Wilcox's dry-goods store. Saw the old store building last September and the old Germania hall. Saw about Dr. Milliken, and in every issue I see familiar names.

BANDIT FOUND IN SACRAMENTO HOTEL

Floyd Hall, convicted in the local Superior court for the murder of Chief of Police Meehan of San Bruno last year, and later an escape from San Quentin, was discovered in a rooming house in Sacramento Thursday night. The finding of Hall ended a search which had continued for weeks, and which is unique in the criminology and in his escape from San Quentin is still at large but is expected to be captured at any moment.

The arrest of Hall in the capital was the result of the prompt action of a man who recognized the pair as they sat next to him in a motion picture theatre in Sacramento. The man waited until they left the house, then followed them out. When they were outside they separated and he followed Hall until he found where he was lodging. He then informed the police. When the police broke in the door of Hall's room they found him under the bed. He surrendered without any struggle.

Since their escape from San Quentin the two convicts are supposed to have committed depradations in several parts of the state, including murder and robbery.

EDUCATIONAL PROGRAM IN SCHOOL AUDITORIUM

The high school auditorium was the scene of a large gathering Tuesday evening in obesrvance of National Education Week. The meeting was under the chairmanship of J. D. Hedge, clerk of the board of trustees of the high school district. Roy W. Cloud and E. B. Hinman were the principal speakers

Cloud's topic was "The History of Education," and his remarks were interesting and instructive. Hinman speaking on "Learning to Live Together" made an interesting and sensible address, which was highly ppreciated.

Two students of the high school, Robert Poole and August Fromm also spoke on Tuesday evening, discussing the relation of the high school to the community.

Music was supplied by the high school orchestra under the direction of Prof. C. E. Gaylord and by the boys' singing class directed by Prof. Otis M. Carrington.

Mr. and Mrs. Donald Williams, Mr. and Mrs. Ed Whitehead, Rev. and Mrs. R. J. Currie, and Miss Florence Belles represented the local Congregational church at the Santa Clara Valley Conference of Congregational churches held in San Mateo last Tuesday.

AMERICAN LEGION BANQUET SUCCESS

The members of the local post of the American Legion and their friends from Redwood City and neighboring posts enjoyed a delightful banquet at the fire house Thursday evening, and an extensive entertainment was enjoyed.

James Fisk, State Adjutant, and Nathan Coombs, State Commander of the Legion, were present and addressed the local men. Dr. John Blood, Commander of the local post, acted as toastmaster during the banquet.

The Redwood City Post of the American Legion is one of the organizations in town which has not limited its activities to the business of their meetings, but have always taken an active prt in every community affair. The Legion is now sponsoring the Boy Scouts, is looking after the interests of war veterans, who have not received their proper compensation for injuries received during the war, and is in other ways helping in community development.

It is the plan of the local post to have bansuets like the one Thursday evening often in the future, as it is thought that in this way the interest of the members will be increased and that the membership of the post will be enlarged.

KIWANIS CLUB WILL CLEAN REDWOOD CITY

Redwood City will vie with the proverbial spick and span town of the soap ads when the local Kiwanis Club gets through with its clean-up program this spring. Back lots will be coaxed into a semblance of cleanliness and in the big open spaces of the town the Kiwanians will endeavor to bring order out o fchaos.

Plans for the clean-p drive were discussed at the meeting of the club last Tuesday and a committee consisting of Chas. Dimmitt, Mark Ryan, Con. Drathman, C. Argo, C. Doxsee, was appointed by J .D. Hedge, president of the club. The Kiwanis Club hopes to secure the aid of the American Legion, the Boy Scouts, the City Trustees and other private and public organizations of the town in putting over their clean-up week.

It is the plan for the members to don their golf trousers, sport suits and other working clothes and personally dig the weeds from the public places during this drive. It has been suggested that the cemetery be cleaned and put in order also.

RADIO GIVEN CLOUD BY TEACHERS OF COUNTY

Roy W. Cloud, who resigned this week from his position of County Superintendent of Schools, after having served in that capacity for the past sixteen years, was this week presented with a beuiful radio set by the teachers of the county in token of their appreciation of the work he has done for the schools of the county during his time in office.

ABSTRACT OFFICE GOOD BUSINESS BAROMETER

The local abstract office is usually a good barometer for information concerning the activity of the real estate market. C. M. Doxsee of the George H. Rice Abstract Company says that the office was never so busy in its history as it is today. It is doing a vast volume of business. The real estate transactions in all portions of the county are enormous and the number is steadily growing. Mr. Doxsee says there was such a demand for peninsula property, particularly in Redwood City, than there is now.

Monied men are seeking investments here knowing that the returns will be profitable and certain. Persons buying realty in any portion of the peninsula now may look for rich returns in the very near future.

LOCAL SWITCHBOARD ENLARGED

The increase of business in the local office of the Pacific Telephone and Telegraph Company has necessitated the addition of two sections of switchboard to the local equipment. In order to accommodate this additional equipment the petition separating the operating room and the business office has had to be moved thus enlarging the operating room at the expense of the business office.

BOARD HEARS SAN CARLOS PETITIONERS

The board of supervisors of San San Mateo county heard the petition for the incorporation of San Carlos at their regular meeting last Monday. The petition was brought before the board by Attorney A. J. Stebenne. Stebenne called upon Fred Drake, William Sessnon and Asa Hull, who after being duly sworn by the clerk of the board, verifeid the signatures of the petitioners. John V. Clark was also sworn before the board and testified that the population of San Carlos was 665.

A protest was received from the Spring Valley Water Company and from Mrs. J. DeNivernais, who objected to having their property included in the proposed incorporation. The property of the water company and of Mrs. DeNivernais was excluded by the petitioners through their attorney.

A protest from the Town of Redwood City was placed before the board by City Attorney Albert Mansfield of Redwood City. According to Mansfield, the inclusion of the White Oaks tract would be objectionable to Redwood City, as this tract should eventually be annexed to Redwood City. Attorney Stebenne however, produced letters from most of the residents of this tract stating their desire to be included in the new incorporation. No protest was recived from any resident of this tract. Attorney Stebenne also stated that he had called upon Attorney A. C. Lowell, legal representative of the owners of this tract, and had learned from him that the owners of the White Oaks tract were infavor of having their holdings included in the new town rather than in Redwood City.

An ammended map of the proposed incorporation with the lands of DeNivernais and of the Spring Valley Water Company excluded was then presented to the board by Attorney Stebenne, who asked that the board fix a time for the election. Henry Beeger, mayor of Redwood City appeared before the board at this time, however, and asked that the hearing be continued for a week. Beeger explained that the trustees of Redwood City had been planning for some time on annexing White Oaks to this city.

Supervisor Brown, in whose township the proposed incorporation will be, addressed the board and urged that since there were no protests from the residents of the tract, and as all seemed to favor the incorporation, that a date be set for the election. Supervisor Brown's motion failed to secure a second, however, and was lost. The matter was laid over folr one week.

The meeting Monday was largely attended by residents of San Carlos and the auditorium was crowded with enthusiastic spectators as the matter was debated by the board.

MANY BIDS RECEIVED FOR SCHOOL WORK

Bids were received Thursday evening by the board of trustees of the Redwood City Grammar School district for additions to be made to the Lincoln nd Washington schools and for the painting of the central school. The work to be done consists of building two new rooms on Washington school on the Woodside road and four rooms n the Lincoln school on Whipple road. The contract was let to Louis M. Pollard of this city, who placed the lowest bid.

The following bids were submitted:

John Matson, $38,358; J. Pringle, 37,382; J. W. Hepderson, $37,592; H. C. Groom $38,480; H. W. Arnold, 135,880; N. F. Nielsen, $36,500 L. N. Pollard, $35,544; Gus Waller, $39,381; Russell & Duncan $39,991.

PUBLIC SCHOOL WEEK

UBLIC SCHOOL WEEK was observed throughout the United States this week and, was the occasion of patriotic and educational meetings in every town. The public is coming to realize more and more that the public school is the most important unit in our democracy, and it is to accentuate this fact that Public School Week was initiated.

It is the public school more than any other factor in modern development which has made possible free government by the people. It is the meeting place of every class, race and creed; and is the real melting pot upon which the assimilation of foreign races within our borders depends. The full grown alien who comes to this country and goes to work can only occassionally be counted upon to become a real American. He has not the opportunity of meeting and mingling with others on equal terms that his son has who attends the public school. Aliens who come to this country as children and attend our schools seldom fail to become imbued with the American spirit.

The public school is the great leveling force in our land, and so long as it is kept in tact there is little danger of the development of an aristocracy here such as has wrecked Europe several times. If the children of the dukes and the peasants of France attended the common schools together three centuries ago there would have been no need of the French Revolution. If Roundheads and Cavilears had attended the same schools in England there would have been none of the persecutions which make one of the darkest parts of the world's history. And today there would not be the conditions which exist in Russia now had the aristocracy and the peasantry had the mutual understanding which would have been obtained in the public school.

Few things in life are common to all. All are born, but under far different circumstances. All die, but under conditions in which there is no similitude. From birth to death the life of one man may have no point of contact with the life of another unless both attend the same school, learn the same lessons, play the same games, and live subject to the same regulations during school hours. These points of contact tend to break down the barriers which would otherwise exist between men of different stations in life, of different religions or of different races. The development of real democracy is based upon mutual understanding. This the public school does much to supply.

VACATION TIME

ITHIN a few weeks now the schools of the county will be closed for the summer vacation, and the problem of how to spend the time will be faced by the greater portion of the pupils. Some, and these and only the most fortunate ones, will be able to go to some place of interest for the summer, but the great majority must remain here at home and devise some way of spending their time.

Now to some, especially some of the high school pupils, finding a job during the summer vacation is one of the momentus occasions of the year. To some of the latter it means their continuance in school for another term. It may be a deciding factor in their whole future life.

If the merchants of Redwood City can find some employment to occupy a boy during the summer, they will be rendering a real service to the boy and to the community.

THE BAYSHORE ROAD

WO bills are now before Governor Richardson awaiting his signature. One calls for the construction of the Eastside highway along the bay shore from San Francisco, the other provides that the present tax on gasoline be increased one cent to pay for the construction of this road. The road is needed, there is no doubt of that, and if any did exist, a drive along the present highway on a Sunday would soon dispell it.

What is needed now is to let Governor Richardson know of this need. The proposed construction of this road has brought forth the usual storm of protest from the city of the so called angles, who with their usual display of spirit oppose any progress in the northern part of the state.

The merchants association of the southern city have opposed the bill for building this road on the ground that the people of Los Angeles use only the city streets and should not be taxed to pay for roads of the state. If the same thing were made to apply to every other city, there would be few passable roads in the state.

The south has made itself heard but in the remainder of the state the opinion is unanimously for the road. But unless the governor is made to understand the situation, the protest from the minority may influence hi sdecision. Checkmate this propaganda, write the governor, tell him we need the road.

HAVE YOU DONE SO?

COUNTY TO MAKE CITY HEALTH TESTS

That citizens living in an incorporated city have as much right to services of the county hospital as those outside of the cities have, was the ruling of the Board of Supervisors Monday. The matter was brought before the board by City Attorney Albert Mansfield of Redwood City, who stated that the town of Redwood City had received a claim for $89 from the county hospital for tests made on diptheria cultures for the local schools.

Supervisor Hickey stated that as such tests were made free for residents outside of the cities the same should be done for any resident of the county, as the people in the cities paid taxes to keep up the hospital as well as those outside of the cities. The clerk was instructed to write to the hospital authorities telling them that this was the opinion of the board.

WAR DEPARTMENT WANTS LOCAL HARBOR INFORMATION

The following communication was received last week by the Redwood City board of trustees. The matter was turned over to the city engineer and the city attorney, who will be assisted by the chamber of commerce, who are now at york compiling the necessary figures.

To Whom It May Concern

1. The River and Harbor Act of March 3, 1925, calls for preliminary examination and survey of Redwood Creek, California, for a channel from Redwood City 30 feet deep and 300 feet wide to the main channel in San Francisco Bay.

2. The duty of making said preliminary examination has been assigned by the Chief of Engineers to this office, and it is requested that interested parties inform this office in writing with reference to the desired improvement.

3. The points upon which detailed information is desired are as follows:

a. The draft of vessels that would use the desired improvement.

b. The volume, character and value of incoming and outgoing commerce that would use said improvement, and when this commerce would develop.

c. The tributary area that would be served by the desired improvement.

d. Improvement contemplated by local interests to aid navigation, including reclamation of land and construction of terminal and transfer facilities.

e. Probable saving to the public that would be effected by the desired improvement.

f. What would be the probable amount and character of local cooperation, if any, in reducing the cost to the United States of the desired improvement.

4. Any matter bearing on the subject should be submitted to this office not later than September 1, 1925.

JOHN W. N. SCHULZ,
Major, Corps of Engineers, District Engineer.

Cleaning White Paint

A good way to clean white paint is to dip a piece of soft flannel cloth in warm water, wring it out, then dip it in clean bran, using this to rub the paint. The friction of the bran will remove the stains without injuring the paint.

MAN FOUND SHOT ON PEDRO MOUNTAIN

The body of a man thought to have been the victim of hi-jackers, was found Wednesday near the road on Pedro Mountain. The body, which was later identified as D. M. Danielson of San Francisco, was found to have been shot five times with two guns.

Sheriff McGovern, who with Constable Landini, is investigating the case, believes that Danielson was one of a band of hi-jackers operating in San Francisco, and that he was killed by his companions because he knew to much of their actions.

Danielson is said to hae been an ex-convict and was found to have lived in a hotel on Mission street. Little could be learned concerning him, however, at the hotel.

THE WOODPECKER'S CUPBOARD

The woodpeckers in Stanislaus County, anticipating a hard winter, used Pacific Gas and Electric Company poles for storage. These redwood poles were installed some twenty-six years ago for a power line in the vicinity of the orange blossom colony near Oakdale. The woodpeckers make the holes in the poles and then store in the hole acorns which are available for food in the spring. The woodpeckers in returning from their winter quarters do not eat the acorn but remove therefrom a small white worm which has been formed during the winter months. The woodpecker must contend with the possibility of the acorns being stolen by squirrels and in storing the acorns it is necessary to select them the right size to fit the various holes which they have bored. This in order that they may be snugly stored away.

"dangerous!"

says the doctor "use ice!"

Milk should never be kept in a temperature warmer than 50 degrees. Even before it spoils it loses much of its food value, and may disagree with young children. There is only one *safe* place to keep milk—in the cold, *even* temperature of a refrigerator. Where there are children in the home the regular use of ice is a necessity—all the year round!

The time to take ice is now! Hang out your ice card today—and see that your refrigerator is filled regularly.

"SEVEN CHANCES" HAS 700 BRIDES

Buster Keaton Just Can't Say "No" In Latest Comedy

When it comes to money and marriage in "Seven Chances," his latest Merto-Goldwyn comedy, coming on next Wednesday and Thursday, May 20-21 with a matinee Thursday afternoon at 3:15, to the Sequoia Theatre, Buster Keaton just can't say "no."

Buster starts as a millionaire but, being of a most religious turn of mind, he sells all he has and gives the proceeds to the poor. Meanwhile some 700 women in bridal regalia answer his newspaper advertisement for a wife, believing him to have $7,000,000. And there the fun begins.

David Belasco considers "Seven Chances," the funniest stage comedy of recent years. And Buster Keaton has "gagged it up" until his film version is declared to be seven times as funny as the stage comedy was. Joseph M. Schenck purchased "Seven Chances" from David Belasco and released it through Metro-Goldwyn Pictures.

Buster's new leading women in "Seven Chances" is Ruth Dwyer, who has just finished the lead in "White Fang." Miss Dwyer is the third leading woman. Buster has had in the past year, Natalie Talmadge Keaton, his wife, and Kathryn McGuire having played opposite to him in his previous comedies.

Buster also is suported by T. Roy Barnes, star of many Hollywood comedies and New York musical comedy successes; as well as by Snitz Edwards and Jules Cowles and a bevy of seventeen beautiful "baby" stars, including Loro Bara, sister of Theda Bara, Marion Harlan, daughter of Otis Harlan and Alma Bramley, Detroit heiress.

"Seven Chances" was adapted from the David Belasco play by Jean Havoz, Clyde Bruckmann and Joe Mitchell. It was made under the supervision of Lou Anger.

Cleaning Without Odor by the
F. Thomas *Process*
Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded bp our customers.
With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.
Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. t is little better than ordinary distillate and leaves a sickening gasoline smell in your clothes.

GLORIA SWANSON IN "MADAME SANS GENE" A REAL SCREEN EVENT

Produced in Paris with Charles de Roche Heading Strong Cast

"Madame Sans Gene," Gloria Swanson's latest Paramount production and the one and only motion picture to play on Broadway at five dollars a seat will be at the Sequoia Theatre on next Monday and Tuesday. This picture was to have shown here last week, but was unavoidably delayed.

The picture, filmed in France, unfolds, against a background of the Paris of Napoleon's day, the tale of a young French laundress, who by her wits and beauty rises spectacularly to become a power behind the throne.

The play is a classic of the stage, having been acted by the foremost feminine stars here and abroad.

Gloria, as Catherine Hubscher, nicknamed Madame Sans Gene (Madame Devil May Care), because of her free and easy way with her customers, runs a laundry in one of the back streets of Paris. One of her customers is Napoleon, when that individual is considered a mere nobody by his associates.

Sans Gene meets and falls in love with one Sergeant Lefebvre, played by Charles de Roche. With the French Revolution come many changes. The establishment of the first Empire puts Napoleon on the throne of France, makes Lefebvre, a Marshal of France and finds Sans Gene, the one-time laundress, a Duchess.

Her high and haughty position, however, fails to change Sans Gene, and she goes about mimicking the icy court mannerism of the lords and ladies. She is called to account for her unbecoming conduct by the Emperor, but when Sans Gene recalls the old days to him and reminds him of her many kindnesses to him, he quickly forgives her.

The arrival of Count de Neipperg on a mission from the Austrian Emperor, serves to complicate matters not a little. Empress Marie Louise, wife of Napoleon, is at once attracted to the handsome Neipperg, and Napoleon is insanely jealous, suspecting the worst. He orders Neipperg thrown out of the castle, but Sans Gene saves him just in time from committing such a grave diplomatic error, shows him that his suspicions haven't a leg to stand on and so establishes herself more formly than ever in his favor.

Even for Gloria Swanson, whose every picture is the last word in gorgeous gowns and luxurious settings "Madame Sans Gene" is truly a deluxe production.

By JAMES A. BACIGALUPI

President Bank of Italy

Shortly after the first of the year, and immediately following the early sanguine predictions for business conditions during 1925, there was a tendency on the part of many people to ask: "Where is this much talked of prosperity?"

Undoubtedly the question arose from the impatience of those who were anxious to see a quick pick-up and chafed at the seeming slowness of an orderly trade revival.

I believe, however, that the general improvement of business is perceptible as we are well into the second quarter of the year, and that conditions are measuring up to expectations. The rains that have been recently enjoyed are important factors in the attitude toward prosperity, for the agricultural outlook continues to hold an important place in any vision of California economic well-being.

That the Bank of Italy views the future with no uncertain degree of confidence is evidenced by its building program that is under way. Throughout the state there is now in progress a well-ordered plan of construction, reaching from Oroville to San Pedro, and including the erection of new structures, as well as the alteration of several that are at present inadequate, due to steadily increasing business. If we were not convinced of the existence of sound conditions and the probability of their permanence, we should not readily commit ourselves to an undertaking so comprehensive in its scope.

Indications point to a successful year for the farmers of the state—one of the best they have enjoyed. An increase in the number of industrial enterprises seeking locations here is noted, and the reflection of these conditions in the volume of retail trade is a natural sequence.

It is never difficult to find a golden prospect in a state as bountiful as California, and this year is no exception.

Action No. 10822

ANTONIO CONTI, Plaintiff
vs.
All Persons claiming any interest in, or lien upon the real property herein described or any part thereof, Defendants.

R. M. J. ARMSTRONG, Attorney for Plaintiff, 250 Montgomery street, San Francisco, California.

THE PEOPLE OF THE STATE OF CALIFORNIA:

To all persons claiming any interest in, or lien upon, the real property herein described or any part thereof, defendants, greeting:

You are hereby required to appear and answer the complaint of Antonio Conti, plaintiff, filed with the Clerk of the above-entitled court and County, within three months after the first publication of this Summons, and to set forth what interest or lien, if any, you have in or upon that certain real property or any part thereof, situated in the County of San Mateo, State of California, particularly described as follows:

All of Blocks 4, 5, 14 and 15, and Lot 7, and Fractional Lots 1 and 8, in Block 23, as said lots ard blocks are laid down and designated upon a map entitled "Map of the Lands, City and Extension Homestead Association, situated in San Mateo County," which said Map was filed for record in the office of the County Recorder of the County of San Mateo, State of California, on the 15th day of October, 1870, and is recorded therein in Book "D", page 44 of Original Maps.

Excepting therefrom, the right of way granted to Spring Valley Water Company, a corporation, by Charles L. Patton by deed dated July 1, 1907 and filed for record in the office of the County Recorder of San Mateo county on July 5th 1907, and recorded therein in Book 135 of Deeds at page 336.

And you are hereby notified that, unless you so appear and answer, the plaintiff will apply to the Court for the relief demanded in the complaint, to-wit: That it be adjudged that the plaintiff is the owner of said property in fee simple absolute; that his title to said property be established and quieted; that the Court ascertain and determine all estates, rights, titles, interests and claims in and to said property, and every part thereof, whether the same be legal or equitable, present or future, vested or contingent, and whether the same consists of mortgages or liens of any description; that plaintiff recover his costs herein and have such other and further relief as may be meet in the premises.

WITNESS my hand and the seal of this Court.

We used to feel sympathetic when we heard of a young girl who had to "shift for herself," but now it might refer to her handling the levers of a handsome roadster.

SEND FINGER PRINTS OVER THE TELEPHONE

The police have put the telephoto to the test and has proven its great value as a factor in increasing public safety.

The photograph of a single finger print with no additional indentifying detail other than the reference as to measurements, etc., was sent to Chief of Police Daniel J. O'Brien of San Francisco by Police Commissioner Enright of New York. The photograph was accompanied by the statement "Indetification Wanted—New York Police Department."

Within a very few minutes after the print of this was received, the nagative was presented to Chief of Police Dniel J. O'Brien in his office at the Hall of Justice, San Francisco. Complete police records including finger prints, identification photographs and other details were turned over to the local representatives of The Pacific Telephone and Telegraph Company to be photographed and was transmitted by telephoto to Commissioner Enrgiht, New York.

Telephoto is now recogized and used by the newspapers as a medium for getting timely pictures of great news events and it is probable that following the successful use of the telephoto by the New York Police, it will become a recognized factor for use in the capture and identication of criminals.

This actual use of the telephoto by the police overcomes all former doubt and skepticism as to its practicability.

SUPERVSORS DEADLOCK ON SCHOOL APPOINTMENT

A deadlock, which it seems will not be broken until the fifth member of the board is able to return, was apparent this week in the meeting of the board of supervisors, when Roy W. Cloud tendered his resignation as county superintendent of school, a position which he has occupied for 16 years.

The deadlock was caused when two members of the board favored the appointment of Miss Pansy Abbot of San Mateo to fill the vacant position, while two favored the appointment of M. E. Rogers, principal of the Halfmoon Bay high school. Thomas L. Hickey and Mrs. Rosalie M. Brown, supervisors of the First and Second townships respecteively, favored the appointment of Miss Abbot, and the supervisors from the Fourth and Fifth townships, Manuel Francis and Dr. C. V. Thompson, were for Rogers.

Supervisor John MacBain of the Third township, who will have the deciding vote, is now in a sanitorium and was recently granted a leave of absence of 60 days by the board on account of illness. As Superintendent Cloud's resignation was to take place on the 13th, the county is temporarily without a superintendent of schools.

TELLS OF WHIPPING IDOL OF PRIZE RING

Principal Got More Than Decision Over John "L."

At the end of the school term, in June, 1870, the school authorities informed Sullivan senior, father of John L. Sullivan, that, incredible as it might seem, they would struggle along thereafter without the presence of his son on the roster.

"Jawn," said his mother, grimly, "ye are too young to go to Boston college, where the brothers will mend yer manners. But meantoime ye shall go to the Dwight Grammar school in Springfield street, where Professor Page will cure ye iv yer indacent misbehavior-r-r."

Prof. James A. Page was the first man to whip John L. Sullivan! To the end of his long and useful life—he died in 1917, at the age of ninety-two—Professor Page liked to tell of the few incidents he remembered in connection with his famous pur'l. He sent the new student to his room and told his teacher to fasten a wary eye on him. The first thing she saw, an hour later, was a note being passed from desk to desk. She captured it and read:

"My name is John L. Sullivan. I whipped every boy at the Concord primary, and I can whip every kid in this room. I'm going to do it, too. Read this and pass it on."

In less than a month young Sullivan had made good. His recesses consisted of one combat after another. His progress after school was a series of fights that strung out for the full half-mile home. He even went to his classes a half-hour before the bell rang, charming his mother by such industry. Alas! it was only to have more time to hunt boys he had not yet whipped!

Professor Page recalled that his reports showed John was fairly interested in arithmetic and English, soon losing the brogue he was saturated with at home, but was hopeless in geography.

One day, in answer to a question as to their whereabouts, he told his teacher that the Rocky mountains were in Maine. A shout of derision followed, and John punched the nearest boy on the nose. Into the free-for-all that followed the teacher plunged, emerging with a firm clutch on Sullivan's collar. She sent him to the principal with a note. Page returned with him, and in front of the pupils gave the future champion a sound beating with a two-foot ruler.—Joe Dorney and Sid Sutherland in Liberty.

High Price for Race Horse

Eighty-five thousand dollars for a race horse, the highest price ever paid publicly for a horse in Australia, is the sum for which Heroic, the winner of last year's Caulfield Guineas, has changed hands. Heroic is bred from an English sire, Valais, and as a two-year-old was the largest stake winner on the Australian turf.

Waiters Lose "Perks"

It is not necessary to preach economy in England, where taxes are at a maximum. One after another old wasteful customs—some of which have helped provide a living for the needy—are disappearing under the watchful eye of the efficiency expert. Among these are the "perks" (perquisites) of the porters and waiters in hotels. It used to be a porter's "perk" to collect all the old newspapers left lying around by guests and sell them for what they would bring. Those days are gone. Old papers, in most London hotels, must now be handed over to the management and kept for sale in bulk for the benefit of the house. It is the same way with corks—a waiter's "perk." These have become too valuable to be donated to employees. Ordinary corks sell for as much as 3 pence (6 cents) apiece; champagne corks bringing as high as 8 pence.

The Correspondent

John McCormack, the famous singer, receives a great many letters from aspirants to musical fame.

At a dinner in New York Mr. McCormack read a letter that had been sent to him under the erroneous impression that he taught voice production. The letter, dated from the Middle West, ran:

"Friend John—Please let me know your lowest rates for full correspondence course in voice production. I have no voice, but as the efficiency engineer business is not what it was represented to me by the International Efficiency School of Correspondence, I desire to abandon same in favor of grand opera, and if you can produce me a fine tenor voice I will be glad to pay, in addition to regular charges, a cash bonus and a generous percentage of salary receipts for a term of years. Answer by return."

It Comes High

Percival S. Hill, the tobacco magnate, subscribed for $10,000,000 of the German loan. Of course, he would not have done this if he had not been thoroughly conversant with European affairs. At a luncheon in New York the other day he was talking about David Lloyd George, once the most prominent and popular man in the world, now a negligible member of a negligible party.

"Envy wiped Lloyd George out," he said. "His case is like that of the pretty girl.

"'What makes Phoebe so disliked?' one young matron asked another.

"'Why, didn't you hear,' said the other young matron. Phoebe got the most votes at the church sociable for being the most popular girl.'"

A POWER HOUSE BUILT IN ROCK

Leading from Lake Spaulding Dam, in Nevada County, is a tunnel 4000 feet long thru solid granite. Ordinarily giant regulators would be necessary to govern the flow of water.

Engineers of the Pacific Gas and Electric Company conceived the idea of making a cavity in the granite, and there installing a power house instead of regulators. The four walls, roof and floor of this 5000 Horsepower Plant are of granite. Entrance is made thru a hole in the side of the hill. During the midwinter months when the surrounding country is covered with snow, it is necessary to go thru specially protected tunnels to reach the plant.

P. G. & E. REBUILDING LOCAL POWER LINES

Pacific Gas and Electric Company is preparing to reconstruct the power lines here on the joint-pole basis. Under this plan both the telephone company and the Pacific Gas and Electric Company will use the same poles. The telephone company is abandoning its line on Brewster street between Grant and Nevada. Pacific Gas and Electric Company will rebuild their lines on Roosevelt and Oak avenues. This work will involve an expenditure of $9,947.00 and remove many of the poles and bring the line construction up to standard specifications.

Speaking of this work W. T. Kellogg, district manager of the P. G. & E., states that today practically every house built is wired for electricity. This he says is primarily due to the fact that "When the first carbon filament lamps were put on the market in 1880, they were sold for $1.25 each, and gave, when new, about 16 candlepower of light. Two such lamps, costing $2.50 and using 185 watts of electric current, gave an amount of light equal to one modern Mazda lamp, selling at 27c, and consuming only 40 watts of current. These Mazda lamps have an average life of about 1000 hours, so that the saving in current during the life of one such lamp over the old carbon lamps would be 145,000 watts, which would amount to $14.50 on a 10c. rate.

During 1923 there were sold for house lighting, no less than 95,000,000 lamps, large and small, but averaging about 40 watts. On this basis, the saving in the cost of current to householders during the life of these lamps would be more than a billion dollars, if the cost of current were the same as it was in 1880, but as a matter of fact, it is only a small fraction of the cost at that time.

CONTESTS IMPROVING HOME SURROUNDINGS

Furniture Brought From Attic and Upholstered by Owner in Virginia Living Room Contest.

(Prepared by the United States Department of Agriculture.)

It is not necessary to enter a local "contest" in order to get started on improving one's home surroundings. Contests are helpful in giving one a motive for doing what one knows should be done anyway, and they have the added advantage, when conducted by extension workers, of centering attention on certain important aspects of good living rooms and providing whatever helpful information the home demonstration agent has been able to collect on the subject.

Scope for Improvement.

Anyone who really examines her own home in a critical way will see points about it that could easily be improved. The bureau of home economics of the United States Department of Agriculture has worked out a score card which has been successfully used by extension workers in several states, and from it one may gain a number of suggestions as to what to look for in deciding on changes necessary. The living room should be considered from the triple standpoint of its stationary features, its furnishings, and its cleanliness and order. The last feature may be attained without any fundamental changes other than the provision of suitable places in which to keep articles not intended to be decorative. The stationary features are hardest to change, but may, at times, be improved, with the help of the other members of the household. The furnishings themselves offer the widest scope for improvements. Each feature of the room should be judged in respect to its contribution to the beauty, convenience, and healthfulness of the whole, and to suitability when the other features are considered. Furnishings and finishes should be durable and easy to keep clean.

One cannot, as a rule, alter the size or shape of the living room, but if it is absolutely unsuited to the needs of the family, sometimes a different room can be used for the purpose. Possibly partitions may be removed or put in, if the room is too small or too large. The lighting, which includes windows, glass-paned doors, and artificial lighting, should be adequate, attractive and convenient. That is to say, lamps and fixtures should be placed so that the eyes are not strained, and there should be several lights at convenient points in the room. Such fixtures are part of its decorations, and should be pleasing.

Finish Needs Attention.

While any fundamental change in the heating plant of the house may be out of the question, frequently a boarded-up fireplace may be opened, a register enlarged or additional radiating units installed. Stopping up cracks around doorways and window frames with weather strips or filling of some kind may make considerable difference in the warmth of a room. Adequate ventilation must also be provided for, and complete screening in "fly" weather.

Furniture can be done over and regrouped. Curtains and hangings can be freshened or replaced, superfluous and uninteresting pictures and ornaments banished. Those which are retained should add to the beauty of the room and should represent the tastes and interests of the family.

The arrangement of the furnishings depends a good deal on the use that is made of the room. People, for instance, like to sit in a group in front of a fire, and it is natural to find chairs and perhaps a settee or davenport placed invitingly opposite the fireplace. If there is one large, good light in the room, a group of chairs near it will attract those who wish to read or sew. Informal arrangements of this kind make the room look more "lived-in" than stiffly placed furniture.

PRACTICING THRIFT IN PURCHASING FOOD

Cost Is More When Bought in Small Quantities.

(Prepared by the United States Department of Agriculture.)

A good housekeeper knows the quantities of each kind of staple food regularly required by the family and plans her buying accordingly. Almost any food costs more when bought in small quantities or in fractional parts of a pound or other measure. This may be due to the uneven division of the selling price into fractions or to the fact that the dealer charges more because he has to give more time and service to several small sales than to one large one. At the same time, for very small families, it is occasionally more economical to buy perishables in small quantities at a higher rate than to overbuy at a proportionately lower rate and suffer loss from spoilage.

Buying staple groceries and canned goods in dozen or half-dozen lots is usually a means of getting a lower rate. Shopping for such articles only once a week or a month saves time as well as money. On some kinds of foods it is possible to club with neighbors to get reductions on larger orders. This is a good way to buy perishable foods, when one household cannot make use of the entire quantity offered for a special price.

Foods in season are cheaper than those out of season, as the latter have usually to be brought from an entirely different climate. Surplus garden products, if stored, canned, or dried, are an economical addition to the supply of out of season foods. The United States Department of Agriculture will tell you how to save foods by these methods.

Buying by weight is most satisfactory and required by law in various states for many products. The cost per pound of goods in cartons or packages can be estimated from the statement of weight on the label, and compared with other products of a like kind.

Selling services are paid for by the customers in the added cost of goods. The "cash and carry" system is based on the elimination of delivery and credit expenses entirely, and usually stores run on this plan can offer the best prices. On the other hand, the convenience of delivery may be worth something to the consumer, and by planning her quantity buying so as to take advantage of this service, she may save valuable time. Usually stores which permit "charge" accounts make no difference for cash payment, but the housewife herself is better off if she pays cash.

CONVENIENT PLACE FOR IRONING BOARD

Virginia Woman Has Handy Nook for Implement.

(Prepared by the United States Department of Agriculture.)

Where to keep the ironing board so that it will be clean, handy, and ready for use at any time is often a problem. A farmer's wife in Wythe county, Virginia, solved it as shown in the illustration. There was just enough space between the door frame and the window to accommodate the board. She nailed a piece of wood across the two frames at such a distance from the floor that when in use the ironing board would be the right height for her, with the other end resting on a chair. As this height might not do for a taller or shorter woman, it might be necessary to have a folding leg attached to the upper end of the ironing board. When not in use the board rests upright on the crosspiece and is secured in place by a wooden button fastened to the window frame. The bag for clean pressing cloths, wax, and the iron stand is kept just below the board. The bottle on the window sill has a perforated rubber top for sprinkling the clothes. This arrangement gives the housewife good light from both window and door, and in summer weather she is as close as possible to the cool back porch. The pictures were taken by the United States Department of Agriculture.

BANDITS REPORTED SEEN IN REDWOOD

A report phoned to the sheriff's office early Wednesday morning brought the local police and a posse from the sheriff's office to a local restaurant in search of Tanko and Hall, escaped convicts who were serving time for the murder of Chief of Police Meehan of San Bruno. The phone reports stated that the two men were having breakfast at the local restaurant.

A search of the restaurant and the adjoining hotel was made but failed to disclose any trace of the escaped convicts. It is supposed that the call was either meant as a joke on the officers, or that someone had seen two men he thought to be the criminals, but had discovered his mistake and would not disclose his identity.

What are the Protestant Churches Coming to?

ARE YOU A PROTESTANT CHURCH MEMBER? Are you aware of the fact that American Protestantism is fast slipping from the rocky heights of true Bible faith? Do you know that scores of theological seminaries, where your future ministers are being trained, have ruled out an infallible Bible; that thousands of ministers are preaching a man-made gospel; and that literally hundreds of thousands of church members are being swept along by this ever-rising tide of "modernism"?

Do you know that this country today is thickly dotted with churches that are mere shells of their former selves? Do you know that a general collapse of American Protestantism was actually threatening some time ago; that a mighty counter-movement has started; and that we are IN THE GREAT CRISIS right now?

We want to reach EVERYBODY that calls himself a church member—also those who do not read a church paper, and they are legion. Hence this general announcement in your secular paper. Men and women, are you in favor of retaining the Bible that your fathers believed in and that your mothers trusted in, that was their hope and stay in times of brief and sorrow, that gave them cheering visions of a heavenly rest— the rest that your liberals do not believe in because it belongs to the "supernatural" and, therefore "unknowable"? Will you join us in saying "Whatever you do, or don't do, but HANDS OFF THE BIBLE?" Will you help save the Bible for America? Will you join in the fight for its integrity? Will you, too, deny modern scholarship the right to rob us of the only sure foundation upon which our feet can stand, in these shifting sands of time?

Then you are interested in the news that we are now able to convey to you the greatest piece of news heralded for a long time. It is this, THAT A NEW REFORMATION IS COMING! There are rumblings everywhere of the approaching battle—the battle between faith and unbelief, between true religion and false science, between FUNDAMENTALISM and LIBERALISM. And there is yet more news. It is this—that A CREAT GENERAL MAGAZINE is now being published for all the Protestant denominations, edited by the great leaders of conservative Protestantism, which is here to keep its readers promptly informed of every new development in the "new Reformation" movement, and which is blazing the way to a "new Protestantism" in America! The magazine is bigger than any denomination; it has nothing to do with this sect or that. It is interdenominational. It is here to fight, on a huge, nation-wide scale, for the sanctity of the Bible! It is here to place the Bible where our fathers placed it—far above all the thoughts, and philosophies, and imaginations, of mere men! And it is here to adore a DIVINE CHRIST in that DIVINELY INSPIRED BIBLE! That is the only Christ men and women would want for their Saviour in the hour of death; that is the only Bible they would care to rely on when the chilly waves begin to strike their feet, weary of travel.

Recognition of the Sanctity of the Scripture

EDITORS: JOHN CLOVER MONSMA, editor-in-chief; WILLIAM JENNINGS BRYAN, former U. S. Secretary of State; HORACE M. DUBOSE, Bishop Methodist Episcopal Church, South; LEANDER S. KEYSER, Professor Lutheran Divinity School; CLARENCE EDWARD MACARTNEY, Moderator Presbyterian Church, U. S. A.; MARK A. MATTHEWS, Minister of largest Presbyterian church in the world, Seattle, Wash.; GEORGE McCREADY PRICE, expert Geologist, of England; L. R. SCARBOROUGH, President Southwestern Baptists Seminary; JOHN ROACH STRATON, Minister Calvary Baptist Church, New York; GEORGE WHEATON TAFT, President Northern Baptist Seminary, Chicago; MARTIN LUTHER THOMAS, Minister First Presbyterian Church, San Pedro, Cal.—and numerous contributors of note.

This is not a church paper! It is unlike anything you have ever seen. It is bold, but not radical. It is fearless, but not rude. It is powerful in its true, deep, clear faith, but not bigoted. It is conservative, and yet sanely progressive. One of the paper's greatest features is the Practical Comment on the Sunday School lessons by the editor-in-chief, Dr. Monsma. It's unlike anything else ever published in the Sunday School line—not an exposition (you will still need your lesson helps) and yet something that will enable you to grasp the lessons and to apply them practically like never before. "Practical Comment" is written in a snappy style, reads like a story, and goes right to the heart of every lesson.

NEWS OF MENLO PARK

The rain fall for the recent storm was one inch, making a total of 15 and one-half inches for the season which is not quite normal. The rains of the past few days have caused some damage. The cherry crop of the Santa Clara valley suffered considerably while the hay that was cut is damaged somewhat. The strawberry crop did not suffer much loss only that picking was stopped for a few days and the rains will help the vines so the harvest will be greater during the season. Altogether the result will not be much damage as the benefit received will overbalance the losses.

There were several farmers from Ripon, in the San Joaquin valley, here during the week seeking information as to when the Dumbarton bridge would be completed as they desired to make plans to send their products over the bridge to the San Francisco market. The men claimed that they could send their berries, cherries and other truck garden products to the city market by this new route in three hours which now takes fully a day. The people of the San Joaquin valley have their eyes on the bridge, for when completed it will serve as an outlet for that rich country and San Mateo county is certain to benefit tremendously. The farmers declared that many from the valley would buy homes here to enjoy the climate and other advantages and still continue their farming. They looked for big things for Menlo Park.

The bridge will be finished in the fall. During the week a contract for the steel for the Dumbarton bridge was awarded to the Moore Drydock Company, has been completed according to Joe Moore, president of the company, and arrangements are now under way for the transfer of the steel to the site of the bridge.

The entire steel contract totaled 400 tons, Moore said. There will be eleven spans in the bridge, each span weighs thirty-five tons and will be transported to the bridge site on barges 125 feet long.

Tolls authorized for the Dumbarton bridge, as made known this week are:

Each person, 5 cents; each motorcycle, 15 cents; each tri-car, 20 cents; two-passenger automobile, each 20 cents; five-passenger automobile, 30 cents; and seven-passenger automobiles, each 35 cents.

St. Joseph Alumni will hold a food sale in the M. & S. Market, the Slinger building on Santa Cruz avenue today. Toothsome home-made pies and cakes will be offered for sale at reasonable prices. Get your supply for your Sunday dinner. The proceeds is to go to the Alumni fund which is to go towards buying articles for the athletic department.

Mrs. Fred Sharon has arrived from New York where she spent the past winter. After a short time spent at her apartments in the Palace hotel she will open her big estate here where she is to entertain considerably during the summer months.

Fred Nessler departed on Thursday for his annual vacation to be spent in the wilds of Mendocino county. He will visit his daughter, Mrs. C. E. Murray at Albion, near Fort Bragg, and while there will cast his line in the nearby streams hoping to lure the luscious trout by appetizing bate to his hook. Fred is an expert angler, knowing well the haunts and habits of the speckled beauties. He is sure to catch the limit.

Mrs. James Bruce of Menlo Park, who was taken ill while visiting her daughter and son-in-law, Dr. and Mrs. Guy Manson, in Fresno, is convalescing and is expected to return some time next month. Mrs. Bruce had planned a trip to Scotland, but was forced by her illness to change her plans.

A. W Lawler is now a full fledged pharmacist having been granted a license by the California Board of Pharmacy during the week to practice. Young Lawler began his career as a pharmacist as an errand boy for the late Mrs. Selzer, later he went to Redwood City and started his apprenticeship with the Young Drug Comapny. Mr. Lawler is building a home at the county seat where the family will remove in July. He was born and raised in Menlo Park where his grandfather, the late Andrew Lawler, located in the very early sixties, building the first house erected here. The man starts his career under most favorable auspices. He will certainly make good.

Mr. and Mrs. Edward E. Eyre, came down from San Francisco Saturday to pass the summer with the former's parents, Mr. and Mrs. Edward L. Eyre.

Mr. and Mrs. Leonard Hammond of San Francisco have taken the De Lancy Lewis pretty home at Atherton for the summer season in June they are to be joined by Mrs. Hammond's son, who has been attending an eastern college.

Mrs. Julius McClymont gave a bridge party on Friday at their home in Menlo Park. Among the guests were Mrs. Edward Aiken Flanders, Mrs. Francis Forbes, Mrs. Edward Sherwood, Mrs. John Jenkins, Mrs. A. R. Willett, Mrs. Richard Lunigar of Oakland, Mrs. George Morell and Mrs. Claire Clendennin.

Mr. and Mrs. McClymont recently bought the Hopkins house in Menlo Park and are established there for the summer.

The Times-Gazette, that has filled the newspaper field here for the past forty years, has made arrangements to establish another paper here to be called The Menlo Mirror. Headquarters have been secured, and if business justifies the enterprise a building will be erected to house the new journal. Menlo Park has grown out of its swadling clothes and has become a grown-up and wants to have its own paper, like other progressive communities. It is going to have a live paper that will give the people all the news all the time. It is to be hoped the businessmen will rally to its support so that it may be able to render good service and place Menlo Park were she sould be, in the front rank of the peninsula towns. Look for the first issue of the Menlo Mirror.

James Artino, the local tonsorial artist, has purchased a parcel of land on Fremont street on which he is soon to erect a modern bungalow. He says it will not be for rent so it must be concluded that Mr. Artino is to take unto himself a wife. Having the cage he must provide the pretty bird. He is he owner of the Crystal "bobber shop," where all the ladies both young and old come to have their hair bobbed and shingled in the latest style.

Incorporation is the principal topic of conversation heard in Menlo Park these days. The hearing of the petition will be taken up by the board of supervisors on June first and a delegation will be on hand on that date to back up the application. From now until that date the question is to be debated on all sides and every angle will be investigated. It is to be hoped that no ill feeling will be engendered by argument pro et con on the subject. From the unanimity of opinion now being expressed it would appear that if an election were to be called today, incorporation would be carried by an overwhelming vote. There are numerous reasons as the campaign progresses. Menlo Park is the largest unincorporated town in the state, it having a population of 2300. The only other town nearing this population is Crockett in Alameda county. All other communities in the state have their own town government and are prospering and rapidly advancing. Menlo Park, no doubt, world experience a new era of prosperity, growth and advancement if it incorporated. The rapidly growing communities should have their own government in order to protect its inhabitants, its merchants and to foster new industries. The numerous shacks springing up like mushrooms on all sides is a serious menace that could be regulated by the zoning law that could be invoked if the town were incorporated. Every peddler and others coming in from neighboring towns barter their wares to the detriment of the local businessman who pays taxes, should be licensed. There would be enough fines collected from automobile violators to pay the whole expense of the town government. Last month Atherton collected the sum of $300 in fines from this source, more than sufficient to defray the expenses of the town for several months. Taxes would be no higher than they are now and if they were the benefits received would more than offset the little extra amount paid. Menlo Park has arrived at a position in its existence where it must either go a head and progress or go backward. Which shall it be? That's entirely up to the voter. Think it over.

Mr. and Mrs. Mark Loughlin entertained the Companions Card Club at their home last Tuesday evening. Among those present were Mr. and Mrs. W. Ryan, Mr. and Mrs. W. E. Disher, Mr. and Mrs. Milton Marcus, Mr. and Mrs. Campbell, Mr. and Mrs. Duncan Reynard, Mrs. N. M. O'Keefe, Mrs. A. W. Gale, Mrs. F. Worrell, Mr. T. Sullivan, Desmond Sullivan, Harold O'Keefe, Ralph Smith, Carl Neighorn and the Misses Sue Gale and Margaret Harrington.

The Triangle Realty Company, Boyd Braden president, this week sold the Derry and Blanchard holdings on Santa Cruz avenue to Mr. Baird of Redwood City. The owners received big profits on their investment. Property on the avenue is finding ready sale.

Boyd Braden this week bought the old Monchan property on Santa Cruz avenue. It consists of ten acres and sets down in a depression from the road and is just across the way from the J. Henry Meyer estate. The property was owned by William Solen, assistant cashier of the Bank of California, San Francisco. It is said the sum of $10,000 was paid for the choice holding. Mr. Braden is to sell the realty in half-acre lots to week-end buyers of the city. The San Francisquito Creek flows to the rear of the realty and this will be a big attraction to the tired week-enders. In the Sixties the place was purchased by the late John Monohan, supervisor of this township many years ago and a well-known plunger of this locality. In the early days the hospitable home was the scene of many gatherings, participated in by old friends and neighbors of Mr. and Mrs. John Monohan, who were known and liked throughout the peninsula. Both are peacefully sleeping in Holy Cross cemetery, in the shadows of the old home where many years of their lives were happy spent.

PETITION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF SAN MATEO, STATE OF CALIFORNIA, TO INCORPORATE MENLO PARK AS A TOWN OF THE SIXTH CLASS.

To the Honorable, The Board of Supervisors in and for the County of San Mateo, State of California:

The petition of the undersigned respectfully represents:

I.

That each of your petitioners whose name is signed hereto, is a qualified elector of the County of San Mateo, and a resident within the limits of the territory hereinafter described for the proposed incorporation of the Town of Menlo Park.

II.

We respectfully petition that that portion of the County of San Mateo, containing not less than five hundred inhabitants be organized, incorporated and formed into a municipal corporation of the State of California, as a town of the sixth class, under and in pursuance of Act 2748 of the Legislature of the State of California, known as "Municipal Corporation Bill", and entitled "An Act to Provide for the Organization, Incorporatin and Government of Municipal Corporations", and that all acts and procedure necessary and provided to be done by your Honorable Board be had and taken in accordance with the provisions of the Act above referred to, and amendments thereof.

For this purpose your petitioners set forth and particularly describe the proposed boundaries of such corporation to be that portion of the County of San Mateo, State of California, particularly described as follows:

BEGINNING at a point where the center line of Middlefield Road intersects the center line of San Francisquito Creek and running thence Northwesterly along said center line of Middlefield Road to its intersection with the center line of Ringwood Avenue; thence Southwesterly along the center line of Ringwood Avenue if extended to a point on the Southwesterly line of said Middlefield Road; thence along said Southwesterly line of Middlefield Road Northwesterly to the center line of Ravenswood Avenue; thence along the center line of Ravenswood Avenue Southwesterly to the point where said center line of Ravenswood Avenue is intersected by the dividing line between Lots 225 and 236 as shown on map of "Menlo Park Villa Association", filed for record September 14th, 1863, in Book "C" of Maps, at page 6, Records of San Mateo County, State of California; thence along said dividing line between said Lots 225 and 236 above described map of Menlo Park Villa Association and continuing along the dividing line between Lots 224 and 237 above described map of Menlo Park Villa Association Northwesterly to the center line of Oak Grove Avenue thence along said center line of Oak Grove Avenue Northeasterly to the point where said center line of Oak Grove Avenue is intersected by the dividing line between Lots 238 and 245 above described map of Menlo Park Villa Association; thence along said dividing line between Lots 238 and 245 Northwesterly to the corner common to Lots 238-239-244 and 245 above described map of Menlo Park Villa Association; thence Southwesterly and Northwesterly line of Lots 238-233-256-221-214 and 209 above described map of Menlo Park Villa Association to the center line of Laurel Avenue; thence along the center line of Laurel Avenue Northeasterly to the center line of Encinal Avenue; thence along the center line of Encinal Avenue Northeasterly to a point where said center line of Encinal Avenue is intersected by the dividing line between Lots 2 and 3 as shown on map of Villa Lots at Fair Oaks, filed for record April 29th, 1868, in Book "C" of Maps, at page 21, Records of San Mateo County, State of California, if extended Southeasterly; thence Northwesterly along said extension and continuing along the dividing line between Lots 2 and 3 and Lots 6 and 7 above described map of "Villa Lots at Fair Oak" and its extension Northwesterly to the center line of Watkins Avenue; thence along said center line of Watkins Avenue Southwesterly to the Northeasterly line of El Camino Real; thence along said Northeasterly line of El Camino Real Southeasterly to a point where said Northeasterly line of El Camino Real is intersected by the center line of Valparaiso Avenue if extended Northeasterly; thence along said center line of Valparaiso Avenue Southwesterly to its intersection with the center line of Olive Avenue; thence along the center line of Olive Avenue Southeasterly to its intersection with the center line of San Francisquiti Creek; said center line of San Francisquito Creek being the dividing line between San Mateo and Santa Clara Counties; thence along said center line of San Francisquito and dividing line between San Mateo and Santa Clara Counties in a general Northeasterly direction to the center line of Middlefield Road and the point of beginning.

That the said district, territory or tract of land so proposed by us to be incorporated as a municipal corporation is not, nor is any part thereof, within the boundaries and limits of, or incorporated as a municipal corporation within the limits or boundaries of any incorporated city or municipal corporation.

Your petitioners further pray and ask that the said proposed municipal corporation have, bear and be given the name, to-wit: "Town of Menlo Park"; that they further state and say the number of inhabitants residing within the said limits and boundaries of said proposed municipal corporation hereinabove particularly described, is stated to be and the same is two thousand (2,000) as nearly as can be ascertained and stated by your petitioners.

NOTICE IS HEREBY GIVEN that on Monday the first day of June, 1925, at the hour of 10 o'clock, in the forenoon of said day, or as soon thereafter as the matter may be heard, the foregoing petition and affidavit and this Notice will be presented to the Honorable Board of Supervisors of the County of San Mateo, State of California, in regular open meeting of said Board at the meeting rooms or Chamber of said Board in the Court House, in Redwood City, in the County of San Mateo, State of California.

WHEREFORE, your petitioners pray that all of the said County of San Mateo, included within the limits and boundaries particularly described herein, be incorporated as a municipal corporation, with and under the name of the "TOWN OF MENLO PARK" under the provisions of and as provided by the Act of the Legislature of the State of California, entitled "An Act to Provide for the Organization, Incorporation and Government of Municipal Corporations", approved March 13th, 1883, and the Acts amendatory thereof and supplemental thereto.

Dated this 8th day of May, 1925.

Training for Service

KEEPING pace with America's telephone needs means keeping ahead. The work of preparation never ends.

There must be complex engineering studies, careful financing plans, and thousands of manufacturing operations before new facilities can be built and made ready for public use.

And when they are ready, the workers must also be ready, skilled in the multitude of tasks incident to the operation and maintenance of telephone plant and equipment.

In every important center in the country, new members of the telephone forces are in continuous training, preparing to meet tomorrow's telephone needs.

For your telephone system is a living, growing organism. Last year 836,163 telephones were added to its national service. Millions of miles of wire interlace the continent, to interconnect your telephone with nearly 16,000,000 others. Tomorrow there will be more telephones, for the nation demands and expects them.
